1. Product overview

Tactical gloves are designed to protect the hands while keeping full dexterity. They are suitable for tactical, outdoor, sport and everyday use in all seasons.

This manual applies to all tactical glove models, sizes and colours, including full-finger and half-finger versions. The model, size, weight and material composition of your gloves are given on the product label and in the product datasheet.

Features

- **Hand protection:** Knuckle and finger pads absorb impacts and protect against abrasion (depending on the model).
- **Reinforced palm:** Microfiber leather palm patches improve grip and wear resistance.
- **Secure fit and comfort:** The adjustable hook-and-loop wrist strap keeps the gloves in place; breathable stretch fabric allows free hand movement.

2. Usage, maintenance and care

Usage

- **Choosing the size:** The gloves should fit snugly without restricting finger movement.
- **Putting on:** Open the wrist strap, insert the hand fully into the glove, then fasten the strap.
- **Taking off:** Open the strap and pull the glove off by the cuff, not by the fingertips.
- **Limitations:** Unless stated in the datasheet, the gloves do not protect against cuts, punctures, chemicals, electric shock or heat.

Operating and storage conditions

Parameter	Value
Operating temperature	–10 to +40 °C
Storage temperature	–30 to +50 °C
Storage conditions	Store clean, in a dry, well-ventilated place
Sunlight	Avoid prolonged exposure to direct sunlight
Heat sources	Keep away from open flame and heat sources

Care instructions

Care step	Instruction
Washing	Hand wash in cold water
Detergent	Mild detergent only; no alkaline detergents
Wrist strap	Fasten before washing
Bleaching	Do not bleach
Drying	Air dry; keep away from heaters and sunlight
Ironing	Do not iron

- **Storage:** Store only clean and fully dry gloves; damp storage causes odour and mould.
- **Inspection:** Check seams, pads and strap regularly; replace worn gloves. Keep away from open flame: synthetic materials can melt.
